

ATTIVATORE ALLUMINIO

Cleaner to prepare and clean offset plates

**Detergent and antioxidant emulsion for positive and negative offset plates.
High solvent power on ink. Its abrasive characteristic makes it suitable to oxide removal,
due to not perfect plates filing**

Working instructions

- Shake well before use.
- Apply product directly on plates surface, using a wet sponge, with pressure sufficient to removal of ink and of eventual oxide.
- Wash off with water or with wetting solution.

Precautions

- Being the cleaner slightly abrasive, please do not exert too much pressure during use on NOT BAKED analogue and digital, CTP and CtCP plates.
- Do not leave it in printing areas for long time without rinsing it

Main characteristics

- Suitable for all kind of offset plates : analogue and digital ones, CTP and CtCP, positive and negative.
- High solvent power for a quick ink removal.
- Abrasive characteristic for oxidation and scratches removal.
- It improves the ink acceptance in printing areas and water acceptance in not printing areas.
- Easy use.

Physical characteristics

Appearance	Pink emulsion
Density	1,045 Kg/lit
pH 25°C	1,00
Flash Point	65°C
Volatile Organic Compound (VOC)	22%
Ink removal	good

Safety

Read the safety specifications before using this product

Packing

Carton 6 cans x 2 litres

Storage

- Store at room temperature, in dry and well aired place
- Keep far from heat and direct sunlight.
- Keep closed the containers.
- Storage time : 12 months from the production date.

Information given in this sheet is considered to be reliable and is provided in good faith but without guarantee.
