

# TECHNICAL DATA SHEET

## RAPIDEX N

*Emulsion to prepare and clean offset plates*  
*Very active formulation for baked plates*

**Detergent and antioxidant emulsion for offset positive and negative plates. RAPIDEX N has high solvent and abrasive properties, aimed at removing persistent oxidation and fats. Particularly suitable for baked plates**

### Working instructions

- Shake well before use.
- Apply RAPIDEX N directly on plates surface, using a wet sponge, with pressure sufficient to remove ink or the eventual oxide.
- Wash off with water or with wetting solution.
- 

### Precautions

- Use it exclusively on baked plates

For not baked plates, both analogue and thermal ones, we recommend to use PREPARCLEANER A21 or ACTIVAL

### Main characteristics

- Particularly suitable for analogue and CTP baked plates .
- High solvent power for quick ink removal.
- Abrasive characteristics to remove impurities, oxidations and persistent scratches.
- It improves the ink acceptance in printing areas and water acceptance in not printing areas
- Easy use

Appearance	Pink emulsion
Density	1,100 Kg/lit
pH 25°C	3,2
Flash point	63°C
Organic Volatile Compounds (VOC)	30%
Ink removal	Very high

### Safety

Read the safety specifications before using this product

### Packing

Carton containing 6 cans / 1 litre

### Storage

- Store at room temperature, in dry and well aired place
- Keep far from heat and direct sunlight.
- Keep closed the containers.
- Storage time : 12 months from the production date.

Information given in this sheet is considered to be reliable and is provided in good faith but without guarantee. Specifications subject to change without notice.
