

DELETION PEN

**Correction pen for conventional negative plates,
CTP violet photopolymeric plates : AGFA N 91 and
CTP Thermal plates : FUJI PRO T - KODAK SONORA - AGFA AMIGO – AGFA AZURA**

WORKING INSTRUCTIONS

Correction, before printing, on developed plate :

- Remove the image, rubbing with deletion pen on the area you want to cancel. If necessary, rub more times.
- Immediately after correction, remove, with wet cotton or wet sponge, the correction liquid on the plate.
- Be careful that you do not wipe the correction liquid residues in the image area that has not to be removed.
- Clean and regum the plate.
- After correction, always put the cap on the pen.

Correction of plate during printing :

- Remove the ink from plate with dedicated plate cleaner.
- Be sure that all ink is removed.
- Make the correction area complete dry.
- Remove the image, rubbing with deletion pen on the area you want to cancel. If necessary, rub more times.
- Immediately after correction remove with wet cotton or wet sponge the correction liquid left on the plate.
- Be careful that you do not wipe liquid correction residues in the image area that has not to be removed.
- After cleaning with wet cotton or wet sponge, clean the plate with the dedicated plate cleaner to restore the desensitizing capacity of the plate.
- After correction, always put the cap on the pen.
