

LITHONET M

**Solvent for manual washing of rollers and blankets
in sheet-fed printing**

Working instructions

Manual use : blankets

- Apply the product with a cloth, covering uniformly the whole surface.
- Wipe with a cloth or wet sponge.

Manual use : inking rollers

- Apply the pure solvent on milling rollers.
- Let it act, then set in action the blade.
- Repeat the application up to the complete cleaning of the milling rollers.
- At the end of washing, rinse with water.

Main characteristics

- Water emulsifiable solvent, featuring soft smell, middle volatility and excellent cleaning power
- Emulsifiability allows to eliminate at same time both ink fat residues and the hydrosolubles paper ones.
- Free from chlorinated components
- Do not use it on EPDM rollers .

Safety

Read Safety specifications, before using product

Packaging and storage

5- 20 - 200 – 1.000 litres

24 months from production date

Properties

Chemical characteristics	Appearance	Yellow liquid
	Flash point	> 40°C
	Density (25°C)	0.77 Kg/lit
	Water mixable	yes
