

# LIGHT-LITO

**Medium volatility replenisher for inking rollers and blankets - for everyday use**

## Manual working instructions

- Pour the product on a cloth and spread it on interested parts. Remove product with wet cloth.

## Main point

- Do not use it in automatic washing
- As all replenishers, it can damage the emulsion of not baked analogue and digital plates.
- Always handle with care and keep to safety instructions mentioned on the label.
- Do not use with EPDM rollers

## Main characteristics

- Solvent base replenisher, able to melt ink from blanket pores, making it soft and thoroughly clean.
- Necessary when changing colours.
- Flammable product
- It removes size marks and signs, allowing quick print restarting.
- Used daily, it prevents rubber hardening.

## Safety

- Read the Safety Specifications before using this product.

## Packing

- Carton containing Nr 4 cans / 5 litres each
- Carton 6 cans / 1 litre

## Storage

- Store at room temperature, in dry and well aired place
- Keep far from heat and direct sunlight.
- Keep closed the containers.
- Storage time : 24 months from the production date

## Waste

- If possible collect and send them to an authorized waste management firm, in compliance with local and national regulations

## Properties

Chemical characteristics	<b>Appearance</b>	Red liquid
	<b>Odour</b>	Characteristic
	<b>Density</b>	0.865gr/ml
	<b>Flash Point</b>	40°C
	<b>Water solubility</b>	partial

Too long contact time on the plate or too excessive rubbing can damage the image

Information given in this sheet is considered to be reliable and is provided in good faith but without guarantee.
