CONDIZIONATORE DEI RULLI E CAUCCIÙ

ROLLER AND BLANKETS CONDITIONER
NATURAL PRODUCT TO RESTORE INKING ROLLERS

CHARACTERISTICS: Viscous emulsion specifically developed to restore original conditions both printing rollers and blankets, thus recovering previous elasticity and porosity. The **roller conditioner** penetrates deeply, eliminating glazings and ink residues.

APPLICATION: Proceed as follows both for rollers and blankets :
Make a first cleaning with a normal solvent for daily care.
Pour the **roller conditioner** on the running rollers, also on distributing roller. Let the product act for 2 - 3 min. approx.
Clean again with a traditional solvent.

TECHNICAL DATA:

PHYSICAL STATE: Viscous liquid
COLOUR: Milk-white
ODOUR: Typical
PH 6.5
FLASH POINT: Not flammable
WATER SOLUBILITY: Water emulsifiable

PRECAUTIONS: Product can damage the plates emulsion layer.
Follow the instructions for handling contained in the Safety Data Sheet. Being not solvent-based, it is considerably less toxic and harmful than other common products used for such application.

PACKING: Carton containing 4 bottles of 500 ml each.
